

**The Advances in Mineral Metabolism AIMM/ASBMR
John Haddad Young Investigators Meeting
April 3 – 9, 2023**

The Advances in Mineral Metabolism AIMM/ASBMR John Haddad Young Investigators Meeting will be held April 3-8, 2023 in Snowmass, Colorado (the blocked out hotel dates are from April 2-9).

The 2023 AIMM meeting will again take place at the Stonebridge Inn, slope-side in Snowmass Village CO, and will be a hybrid meeting with a Zoom component. We plan to be able to accommodate up to 75 registrants onsite. As COVID is still an issue, we are keeping in close contact with The Stonebridge Inn and will keep you informed if there are any changes.

The goal of this conference is to discuss important or evolving concepts in bone biology and clinical bone disease in a small and informal group setting. Past participants in this meeting have enjoyed the relaxed environment and serious scientific and clinical discussions... and keep coming back!

The atmosphere is enhanced by the midday break (9:30am – 3 or 4 pm, depending on the day), which most use to enjoy a variety of activities available in the Aspen/Snowmass area, such as downhill and cross-country skiing, tennis, hiking and relaxation. This time period is a great opportunity for young and more established investigators to discuss science and mentoring while having fun (we have an established mentoring program). One of the enjoyable features of this meeting has been the ability to combine an interesting scientific medical program with family recreation. We encourage you to bring your families.

Snowmass is located close to Aspen. There are three airports that service the conference site: the Denver International airport (approximately a 4h drive); Vail/Eagle airport in Vail (2h drive), and Aspen airport (complimentary shuttle to hotel). Also, shuttle buses are available from Denver, and some participants arrange for carpooling when convenient.

We have reserved hotel rooms at The Stonebridge Inn, the meeting location, with rates to be determined shortly. Children under the age of 12 stay free in parent's room. <http://www.stonebridgeinn.com/aspen-colorado-hotels.php>

NOTE THAT THERE IS A NATIONAL SKI EVENT TAKING PLACE WHILE WE ARE THERE, SO DEMAND IS HIGH. PLEASE MAKE YOUR RESERVATION ASAP!

Destination Residences Snowmass will offer an expected 20% off of the STANDARD RATES for units at all of the Destination Residence Snowmass Properties listed below. Rooms and rates are available on a Space Available Basis.
